Course: Professional communication in cyberspace

University: University of Ss. Cyril and Methodius in Trnava

Faculty: Faculty of Arts

Course code: KAA/mdJaKKyb-AJ/22

Course type: compulsory

Study degree: master

Year of study: 2nd

Semester of study: spring

ECTS credits: 4

Lecturer: doc. PaedDr. Juraj Miština, PhD.

Course description:

Due to the interdisciplinary nature of the subject, students will acquire a portfolio of linguistic knowledge from several linguistic levels of the English language used on the Internet (lexical, phonetic-phonological, morphological, and stylistic). They can define them and distinguish the specifics of communication on social networks in mobile communication (texting). They acquire an insight into the historical development of language influenced by modern technologies. They recognize the differences in formal and informal e-mail communication, learn the grammatical, syntactic, and phraseological peculiarities of communication genres in cyberspace, get to know the lexicon of the digital environment and learn to distinguish cyberspace subcultures. They will gain knowledge about the specifics of the English language used in Internet communication. In the context of general linguistics, they will learn the principles of word formation of neologisms influenced by information and communication technologies. They adopt new literary genres in cyberspace..
